

The background is a rich, colorful illustration of a fantasy world. It features floating islands with green trees and purple crystalline structures. A winding river flows through a valley. In the foreground, a character with short purple hair, wearing a blue and purple outfit with a long purple cape, stands on a grassy ledge. She holds a large, curved sword. The scene is set under a bright sky with soft clouds and a sunburst effect. The overall style is clean and artistic, typical of modern digital art.

WELCOME TO ETERNITY

In the ever-evolving DeFi and NFT space where many projects falter and decentralized games lack engaging gameplay, Eternity stands out as a fully playable and enjoyable Web3 game.

We've embarked on a mission to combine DeFi mechanics with entertaining gameplay, creating an immersive and sustainable play-and-earn experience.

And the best of all: ***it's live and ready to play!***

What we've already achieved

✓ Eternity's Web3 launch

✓ Glory and Gold Tokens
Tokenomics designed

✓ Mobile app launch 
(iOS/Android)

✓ 370,000 Quests
Attempted by players from early stages
of the game until now.

✓ Innovative Sync/De-Sync
Blockchain Integration

Join us for a sustainable gaming adventure where players can truly own their digital assets – ***all while having a blast!***

GAMEPLAY

Fight, Loot, level up!

Eternity is all about beating up enemies, scoring big loot, and gearing up for the ultimate adventure!

Dive into the heart of the action with Eternity's quest campaign, where your heroes level up and gear up for bigger challenges in order to become a total legend!

While playing Eternity, you will:

Build Heroes

Build your team from over 20 available heroes, hundreds of skills, and an endless supply of items.

Own the Battle

Harness the skills of your heroes to defeat enemies and dominate the battlefield.

Earn Rewards

Complete quests to receive rewards such as Glory and Gold tokens and NFT items.

Manage your Heroes: Equip items to make them stronger and skins to look cooler!

Join the battle: Build up your team to tackle quests and challenges!

GAMEPLAY

More than 20 playable Heroes!

From beefy warriors and deadly assassins to mighty spellcasters, Eternity's got it all.

Whether you crave variety or seek specific strengths, our roster of over 20 diverse Heroes has you covered, allowing you to craft a uniquely dynamic team.

Diverse builds and skills

Each Hero brings a unique vibe and playstyle, and with hundreds of skills that unlock as Heroes level up, there's always something fresh to try.

Tweak attributes anytime to make your Heroes *Tanks*, *Brawlers*, *Healers*, *Mages* or even full damage *Glass Canons*. Switch it up for endless strategies.

Rarity based, tradable heroes

Common, **Rare**, **Epic**, **Legendary** and **Mythic**. Rarity impacts directly in the Hero's overall strength.

All Heroes are NFTs and can be traded in the game's Auction house or any other secondary market (i.e.: OpenSea).

Some of Eternity's Heroes

GAMEPLAY

Earn the good stuff

Play and earn in our game and accumulate Gold, Glory coins, and valuable items simply by playing. Every item is an NFT, giving you ownership and the freedom to trade in the vibrant in-game marketplace.

Enjoy the adventure while building your digital treasure!

Random roll NFT items

All items have random stats and rarity. Also they are all NFTs, tradable in the game's Auction House and other Web3 marketplaces!

Gold and Glory

Real currency, there's a chance to earn Gold and Glory in quests and specific challenges!

New Heroes

Progress through the game and complete challenges to unlock these selected Heroes: **Gladiator**, **The Magician** and **Buddy The Penguin**

TOKENOMICS

Game Tokens

Glory token

ERC20

Glory is Eternity's revenue-bearing and governance token. It is a rare in-game reward for completing specific challenges or events in Eternity.

Glory has a *fixed supply* of 50 million tokens. Additionally, **Glory** can be staked or locked to earn payouts in  ETH.

Gold token

ERC20

A common in-game reward for completing quests in Eternity, **Gold** can be spent to acquire new equipment, harvesting materials, acquire blessings and other upcoming features.

Gold emission matches player demand in order to create a stable in-game currency without rampant inflation.

Valor token

In-Game only

Exclusively for Eternity's Market, **Valor** is the in-game currency for acquiring Heroes, item bundles, promotional bundles and new skins for your heroes.

Valor is dedicated to seamless transactions and is obtainable solely through fiat payment and in rewards for referring new players.

TOKENOMICS

Why would you want Glory?

1 People play, you earn!

Glory holders earn from *every purchase* made in Eternity's store.

Investors profit as player numbers grow.

1

2 Staking for returns

Staking Glory yields 🔄 ETH rewards.

🔒 Locking Glory greatly increases the yield rate.

Locked Glory can be traded on secondary markets (i.e: OpenSea).

2

3 Buy and Sell benefits

Trading Glory is beneficial to everyone holding it;

Fees collected go directly back to Glory investors.

3

4 Permanent liquidity

Permanent liquidity for Glory is added over time through the locking system, which burns a small percentage of Glory on every unlock.

4

5 Referral bonuses and rewards

Referring people awards you with Allure Shards, which increases your ETH rewards.

Allure Shards are also tradable through secondary markets.

5

6 Take part in the community

Glory is the token used to vote on in-game matters relating to the story and the world of Eternity.
